# 17 Different realities

From: <http://cancollschool.blogspot.com.es/2012/12/where-is.html>

# Blended learning scenarios

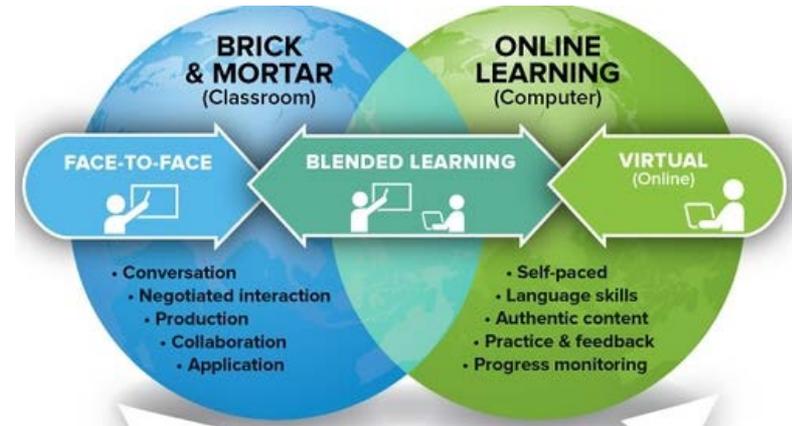

**Schools/High Schools**

**VET Schools**

**Universities**

**Lifelong Education (Adults)**

**Vocational Training for  
Employment**

From: <http://www.thetslaacademy.com/whatisblended/>

# Schools and High schools

**Models:** Lab-rotation moving gradually to Flex

**Resources:** face to face lessons+LMS

**Milestones:**

Programa Escuela 2.0

Free access to online materials  
(Agrega)

**Trends:**

Use of Google apps for education  
(GAFE) and Chromebooks

Some flipped classroom experiences  
reported

escuela 2.0

# VET Schools

**Models:** Labs moving gradually to Flex

**Resources:** LMS + face to face lessons+work placements

**Milestones:** Public offer of blended courses for many professions

**Trends:**

Use of online simulators for training in various professions (e.g.: Electude Platform for car mechanics trainees)

Growing number of professions with a blended option

High demand of these studies

# Universities

**Models:** Labs moving gradually to Flex

**Resources:** Face to face lessons + LMS

**Milestones:** Wide choice of official blended programs for degrees and masters

**Trends:**

Growing use of the Flex model

MOOCs with Community Meetups

Lessons broadcast via streaming and recorded

Growing number of blended courses and/or degrees

First experiences of flipped classrooms

# Lifelong Education (Adults)

**Model:** Flex

**Resources:** LMS + face to face lessons or tutoring

**Milestones:** Creation of national and autonomous Distance Education Centres + Free materials available online for self-paced study

**Trends:**

Many adults taking online courses for official diplomas

Online foreign language learning+meetups

Preparation for university or VET entry exams

# Vocational Training for Employment

**Model:** Flex

**Resources:** LMS + Face to face lessons + Work placements

**Milestones:** New law encourages the use of blended learning models for professional qualifications

**Trends:**

Many Training Centres being certified for blended training  
High quality standards required

# Quality assurance in B-Learning

## National Standard for online education:

Quality of virtual education (Norma UNE 66181:2012, Spanish version of ISO/IEC 19796-1:2005)

- Certification required for official online or blended Vocational Training
- Assessment of:
  - The LMS
  - The online materials
  - Accessibility and usability
  - The potential impact on employability
